Daftar Isi .................................................................................................................. xiii

Daftar Simbol .......................................................................................................... xiv

Daftar Gambar ......................................................................................................... xv

Daftar Tabel ............................................................................................................. xvi

Daftar Lampiran ..................................................................................................... xvii

**BAB I**

PENDAHULUAN ...................................................................................................... 1

1.1. Latar Belakang Masalah ................................................................................. 1

1.2. Identifikasi Permasalahan ............................................................................. 3

1.3. Perumusan Masalah ....................................................................................... 3

1.4. Maksud dan Tujuan ....................................................................................... 4

1.5. Metode Penelitian ........................................................................................... 5

1.5.1. Teknik Pengumpulan Data ......................................................................... 5

1.5.2. Model Pengembangan Sistem .................................................................... 6

A. Analisa Kebutuhan Sistem .............................................................................. 6

B. Desain .............................................................................................................. 6

C. Code Generation ............................................................................................. 6

D. Testing .............................................................................................................. 6

1.6. Ruang Lingkup .............................................................................................. 6

**BAB II**

LANDASAN TEORI .................................................................................................. 7

2.1. Tinjauan Pustaka ........................................................................................... 7

2.2. Penelitian Terkait .......................................................................................... 45

**BAB III**

ANALISA SISTEM BERJALAN .................................................................................. 20

3.1. Tinjauan Institusi/Perusahaan ....................................................................... 20

3.1.1. Sejarah Institusi/Perusahaan ..................................................................... 20

3.1.2. Struktur Organisasi dan Fungsi ................................................................. 21

3.2. Proses Bisnis Sistem ..................................................................................... 22

3.3. Spesifikasi Dokumen sistem Berjalan ............................................................ 23

**BAB IV**

RANCANGAN SISTEM DAN PROGRAM USULAN ............................................. 25

4.1. Analisa Kebutuhan Software ......................................................................... 25

4.2. Desain ........................................................................................................... 36

4.2.1. Database .................................................................................................... 36

4.2.2. Software Architecture ............................................................................... 45

xii
4.2.3. User Interface ................................................................. 51
4.3. Code Generation ............................................................. 56
4.4. Testing ............................................................................. 86
4.5. Support ................................................................. 90
  4.5.1. Publikasi Web * ...................................................... 90
  4.5.2. Spesifikasi Hardware dan Software ......................... 91
4.6. Spesifikasi Dokumen Sistem Usulan .............................. 93

BAB V PENUTUP ...................................................................... 95
  5.1. Kesimpulan .................................................................... 95
  5.2. Saran ........................................................................... 96
