

Memulai Aplikasi Inventarisasi Barang

Aplikasi Inventarisasi Barang merupakan aplikasi yang berbasis web yang bermuat basis data untuk pengadaan barang di sekolah yang bertujuan untuk mempermudah operator atau guru dalam mengolah data pengadaan barang dan buku yang dimiliki sekolah agar pekerjaan lebih efektif dan efisien. Aplikasi ini dibangun dengan beberapa tujuan utama antara lain:

1. Memudahkan operator dalam mencatat data barang yang baru masuk
2. Mempermudah operator dalam hal membuat laporan ineventaris barang dengan jarak tanggal yang dibutuhkan
3. Mempermudah operator dalam membuat surat atau laporan barang yang di mutasi dan barang yang dikeluarkan atau sudah tidak layak pakai.

Mengakses Aplikasi Inventarisasi Barang

Aplikasi Inventarisasi Barang adalah aplikasi yang berbasis web (dengan menggunakan PHP dan MySQL) yang dapat diakses dengan menggunakan laptop/komputer serta sudah diinstallkan xampp untuk menjalankan aplikasinya.

Halaman Depan Aplikasi Inventarisasi Barang

Halaman depan ini digunakan untuk membatasi akses maupun memverifikasi operator atau guru, dimana pada halaman depan operator atau guru, wajib menginputkan Username dan Password.

Gambar 1 Halaman Login

1. Pada bagian login masukan username dan password operator atau guru pada kolom login.
2. Pada tombol login di klik jika Username dan Password telah di inputkan dengan benar kemudian klik tombol login.

Halaman Menu Utama Aplikasi Inventarisasi Barang

Pada saat operator atau guru telah login pada aplikasi maka operator atau guru tersebut akan diarahkan ke halaman utama dari aplikasi tersebut. Berikut ini penjelasan tentang halaman utama Aplikasi Inventarisasi Barang:

Gambar 2. Halaman Utama Aplikasi Inventarisasi Barang

Pada halaman utama Terdapat beberapa menu diantaranya menu beranda yang berisi logo dari sekolah dasar dan data administrator yang login. Selain itu ada menu pengolahan data yang berisi sub menu pengadaan barang yaitu untuk menginputkan barang baru masuk dan transaksi baru masuk. Kemudian sub menu pengalokasian barang yaitu untuk menginputkan jumlah barang yang akan ditempatkan. Sub menu mutasi barang yaitu untuk memindahkan barang ke tempat yang lain dan sub menu keluar yaitu untuk menginputkan barang yang sudah tidak layak pakai atau rusak.

Pada halaman utama juga terdapat menu Data inventaris yang berisikan semua data-data pengadaan barang, pengalokasian barang, mutasi barang, keluar barang dan asset barang. Dimana di menu ini operator bisa melihat, mengedit, menghapus dan membuat laporan per jarak tanggal yang dibutuhkan.

Selain menu data inventaris. Pada halaman utama terdapat menu komponen yang berisikan input jenis, input asal dana, input lokasi, input supplier, kelola kebutuhan, data admin, dan penanda tangan. Dimana di menu komponen ini bisa menambahkan atau mengedit.

Menggunakan Aplikasi Inventarisasi Barang

1. Menu pengolahan data pengadaan barang

Operator harus menginputkan dahulu data barang yang baru masuk di pengadaan barang, setelah menginputkan kemudian klik tambah.
