

BAB IV

RANCANGAN SISTEM DAN PROGRAM USULAN

4.1. Analisa Kebutuhan *Software*

A. Tahapan Analisis

Perancangan Sistem Informasi permintaan rekrutmen karyawan pada PT.Prima Food International berbasis web ini diharapkan dapat mengintegrasikan data permintaan karyawan keseluruhan divisi dengan pelayanan yang ditawarkan seperti : data permintaan karyawan, proses permintaan masing divisi sudah sampai mana, serta pembuatan laporan sehingga dalam hal pemrosesan datanya menjadi lebih efektif dan efisien. Selain itu sistem ini juga diharapkan dapat memberikan banyak dampak kemudahan bagi penggunaannya seperti Manajer OPS (*operasional*) dapat melihat data proses rekrutmen jadi lebih mudah tanpa harus meminta kepada *manager HRD (Human Resource Departemen* secara manual, begitu pula *manager HRD (Human Resource Departemen)* tidak perlu menunggu *Manajer OPS (operasional)* memberikan data permintaan karyawan yang dibutuhkan, karena semua sistem serta datanya sudah terintegrasi didalam sistem ini, walaupun dalam pelaksanaannya dokumen-dokumen fisik akan tetap diperlukan salah satunya sebagai arsip.

Berikut ini spesifikasi kebutuhan (*system requirement*) :

Halaman Manager OPS :

A.1. *Manager OPS (operasional)* Bagian dapat melakukan *login Manager OPS (operasional)*.

A.2. *Manager OPS (operasional)* dapat Mengisi form permintaan karyawan.

A.3. *Manager OPS (operasional)* dapat melihat sampai mana proses permintaan karyawan dilakukan (pada tampilan form list data request employee).

A.4. *Manager OPS (operasional)* dapat melihat laporan pengajuan karyawan

A.5. *Manager OPS (operasional)* dapat mencetak laporan permintaan karyawan sebagai arsip

Halaman *manager HRD* :

B.1. *manager HRD* dapat melakukan *login manager HRD*.

B.2. *manager HRD* dapat melihat data permintaan pengajuan karyawan baru.

B.3. *manager HRD* dapat menerima atau menolak permintaan pengajuan karyawan yang diminta oleh *manager OPS (operasional)*, jika ditolak *manager HRD* harus memberikan alasannya di kolom *Notes for declining*.

B.4. *manager HRD* dapat melihat laporan pengajuan karyawan.

B.5. *manager HRD* dapat mencetak laporan permintaan sebagai arsip.

Halaman *HRD Staff* :

C.1. *HRD Staff* dapat melakukan *login HRD Staff*.

C.2. *HRD Staff* dapat melihat data permintaan karyawan dari *manager HRD* yang telah di terima dan ditolak, jika diterima *HRD Staff* dalam melanjutkan ke tahap proses dengan menekan tombol Proses..

C.3. *HRD Staff* dapat melihat laporan pengajuan karyawan.

C.4. *HRD Staff* dapat mencetak laporan permintaan sebagai arsip.

Halaman *admin*:

- D.1. *admin* dapat melakukan login *admin*.
- D.2. *admin* dapat melihat proses data pengajuan rekrutmen karyawan.
- D.3. *admin* dapat menambahkan / menghapus pengguna yang dapat mengakses web tersebut pada kolom *Master User*.
- D.4. *admin* dapat menambahkan /menghapus nama toko yang sudah tidak aktif lagi pada kolom *Master Toko*.
- D.5. *admin* dapat menambahkan/menghapus divisi yang sudah tidak dibutuhkan lagi,pada kolom *Master Divisi*.
- D.6. *admin* dapat menambahkan /menghapus jabatan yang sudah tidak dibutuhkan lagi pada kolom *Master Jabatan*.
- D.7. *admin* dapat mencetak laporan permintaan karyawan,sebagai arsip perusahaan.

B. Use Case Diagram

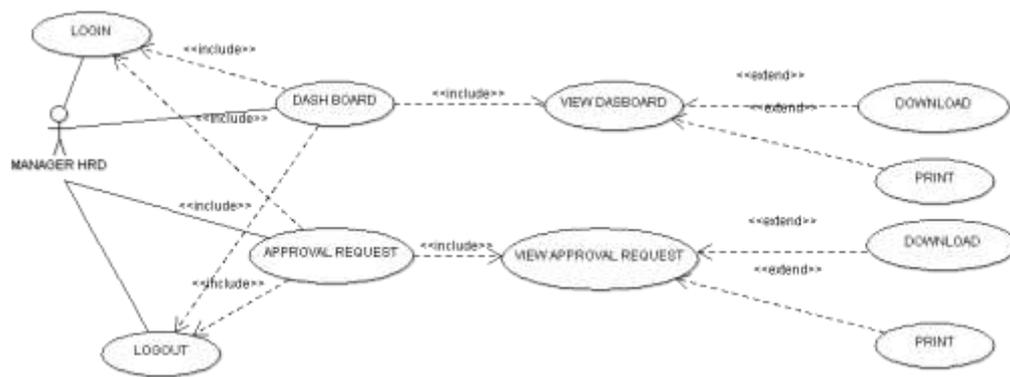

Use case diagram digunakan untuk mendeskripsikan apa yang seharusnya dilakukan oleh sistem.

Didalam *use case diagram*, *website* ini memiliki 3 aktor yaitu :

1. *manager OPS* : *manager OPS* dapat melihat semua informasi yang terjadi pada permintaan karyawan seperti, permintaan yang disetujui dan permintaan yang ditolak disertai dengan laporan pengajuannya.
2. *manager HRD* : *manager HRD* dapat melihat secara keseluruhan permintaan yang dibutuhkan oleh *manager OPS* dan dapat menerima permintaan karyawan yang diajukan atau menolak permintaannya disertai dengan alasannya.

<i>Main Flow / Basic Path</i>	<ol style="list-style-type: none"> 1. Manager OPS melihat informasi tentang proses permintaan karyawan. 2. Manager OPS melakukan pencetakan laporan.

4.2.2. Software Architecture

A. Component Diagram

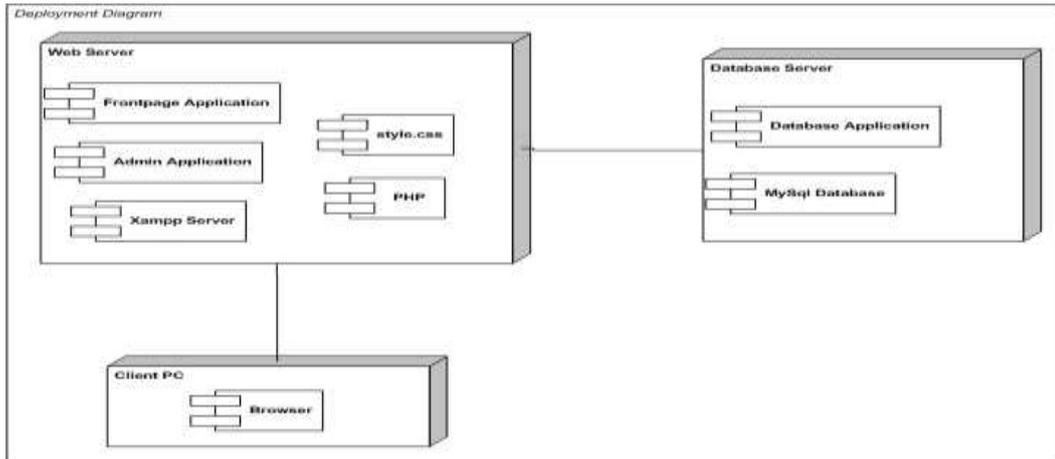

Component Diagram dari website Charoen Pokphand Group ini adalah:

Gambar IV.12
Component Diagram

B. Deployment Diagram

Deployment Diagram dari website pionirbeton ini adalah:

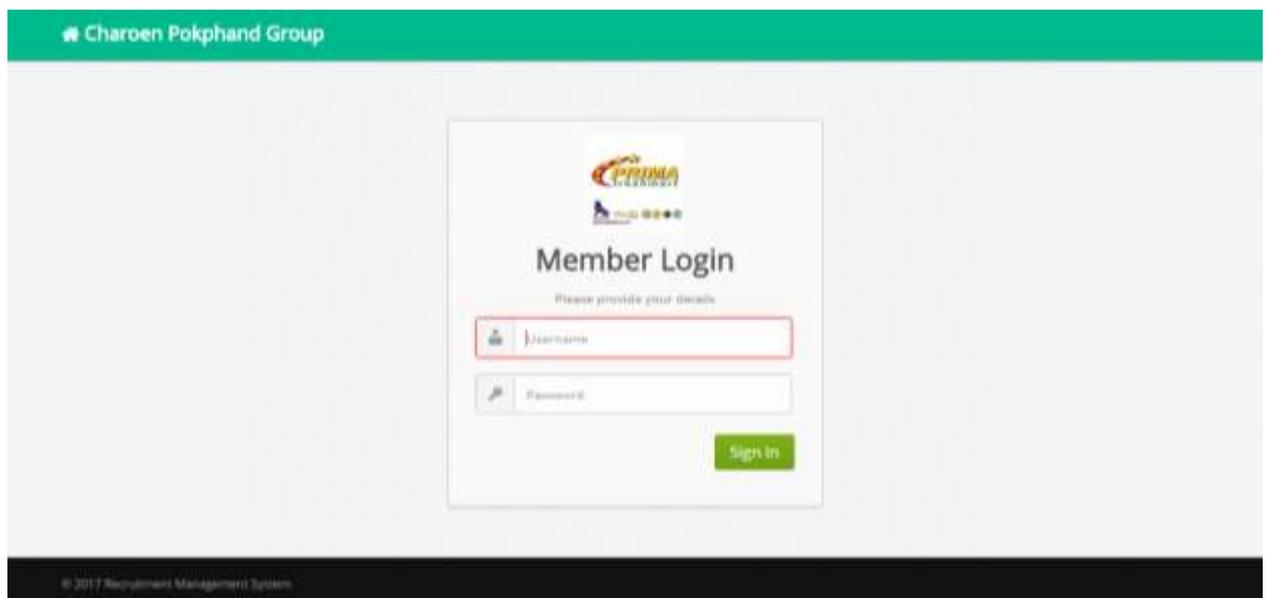

Gambar IV.13
Deployment Diagram

1.2.3. Dokter Interface

4.2.3. User Interface

1. Form Login

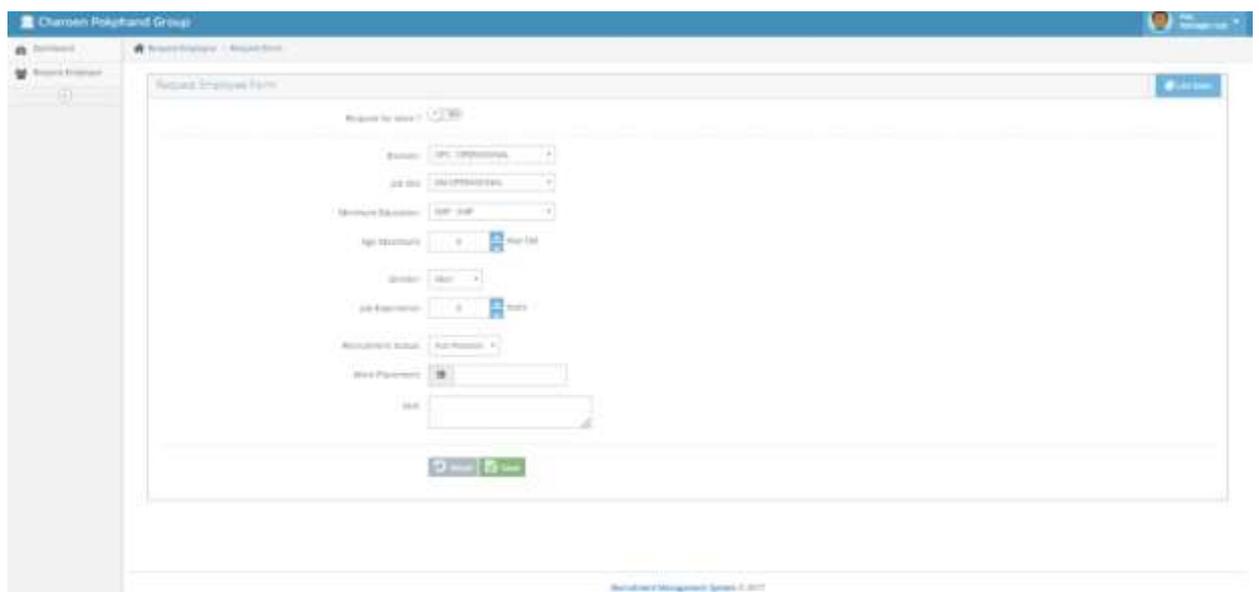

Berikut adalah tampilan form login Charoen Pokphand Group.

The screenshot shows the 'Member Login' interface for Charoen Pokphand Group. At the top, there is a green header with the company name. The main content area is white and features the company logo at the top center. Below the logo, the text 'Member Login' is displayed, followed by the instruction 'Please provide your details'. There are two input fields: 'Username' and 'Password', both with red borders. A green 'Sign In' button is located at the bottom right of the form. At the bottom of the page, there is a black footer with the text '© 2017 Recruitment Management System'.

2. Form Data Permintaan Karyawan

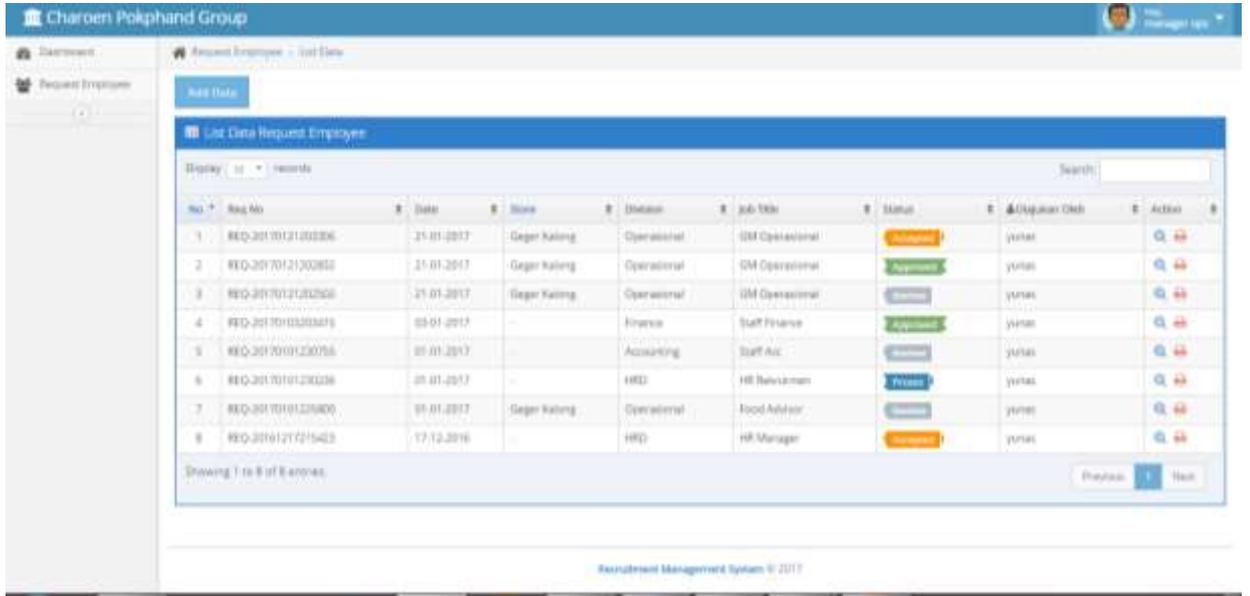

Berikut adalah tampilan form data Permintaan Karyawan.

The screenshot shows the 'Request Employee Form' interface for Charoen Pokphand Group. The form is displayed in a browser window with a blue header. The form itself is white and contains several fields: 'Request Number' (text input), 'Division' (dropdown menu), 'Job Title' (dropdown menu), 'Employee Education' (dropdown menu), 'Age' (text input), 'Gender' (dropdown menu), 'Job Experience' (text input), 'Recruitment Status' (dropdown menu), 'Work Placement' (text input), and 'Date' (text input). There are 'Save' and 'Cancel' buttons at the bottom of the form. The footer of the page contains the text 'Recruitment Management System © 2017'.

3. Form List Data

Berikut adalah tampilan form List Data.

The screenshot displays the 'List Data Request Employee' interface. It features a table with columns for No, Req No, Date, Store, Division, Job Title, Status, and Action. The table contains 8 rows of data, each representing a different employee request. The status column includes buttons for 'Approve', 'Reject', and 'Cancel'. The interface also includes a search bar, a 'Print' button, and a 'Next' button.

No	Req No	Date	Store	Division	Job Title	Status	Approval Date	Action
1	REQ-20170121203306	21-01-2017	Geger Kaleng	Operasional	GM Operasional	Approve	yuras	[Search] [Cancel]
2	REQ-20170121203802	21-01-2017	Geger Kaleng	Operasional	GM Operasional	Approve	yuras	[Search] [Cancel]
3	REQ-20170121203200	21-01-2017	Geger Kaleng	Operasional	GM Operasional	Approve	yuras	[Search] [Cancel]
4	REQ-20170103203075	03-01-2017		Finance	Staff Finance	Approve	yuras	[Search] [Cancel]
5	REQ-20170101203056	01-01-2017		Accounting	Staff Acc	Approve	yuras	[Search] [Cancel]
6	REQ-20170101203238	01-01-2017		HRD	HR Supervisor	Approve	yuras	[Search] [Cancel]
7	REQ-20170101203400	01-01-2017	Geger Kaleng	Operasional	Food Advisor	Approve	yuras	[Search] [Cancel]
8	REQ-20161217215403	17-12-2016		HRD	HR Manager	Approve	yuras	[Search] [Cancel]

4. Form Surat Pemintaan Karyawan

Berikut adalah tampilan Surat Permintaan Karyawan.

The screenshot shows a document titled 'Permohonan Persetujuan Pengajuan Karyawan'. The document contains the following text:

No : REQ-20170121203306
 Perihal : Permohonan Persetujuan Pengajuan Karyawan

Kepada Yth,
 GM HRD
 Uj. Sajak Marudiyusanti
 Di tempat

Dengan Hormat,
 Saya yang bertanda tangan di bawah ini **yuras**, mengajukan untuk memintal karyawan baru dengan spesifikasi sebagai berikut :

Posisi : GM Operasional
 Divisi : Operasional
 Pendidikan : SMP
 Usia : 3 tahun
 Pengalaman : 1 tahun di bidang ini
 Skill : approve

Mohon agar Bapak/Ibu dapat mempertimbangkan pengajuan ini, dengan segala hormat kami ucapkan terimakasih.

Jakarta, 23-01-2017

yuras

4.3. Code Generation

1) Formulir Login

```
function login() {  
  
    $this->form_validation->set_rules('username', 'Username', 'trim|required');  
  
    $this->form_validation->set_rules('password', 'Password', 'trim|required');  
  
    if ($this->form_validation->run() == FALSE) {  
  
        $this->session->set_flashdata('error', validation_errors());  
  
        redirect('masuk');  
  
    } else {  
  
        $login = array(  
  
            'username' => $this->input->post('username'),  
  
            'password' => $this->input->post('password')  
  
        );  
  
        $return = $this->fungsi->login($login);  
  
        if ($return) {  
  
            $this->session->set_flashdata('success', 'Login Sukses ');  
  
            redirect('dashboard');  
  
        } else {  
  
            $data = array(  
  
                'warning' => 'Login Gagal ;)',  
  
                'error' => "Username dan/atau Password salah !"  
  
            );  
  
            $this->session->set_flashdata($data);  
  
            redirect('masuk');
```

```

    }
}
}

```

2) Form Data Rekrutmen

4.4. Testing

Pembahasan mengenai pengujian sistem yang dibuat dengan menggunakan *blackbox testing* untuk pengujian *input output*.

A. Formulir Login

Tabel IV.11

Hasil Pengujian *Black Box Testing* Formulir Login

No.	Skenario Pengujian	Test Case	Hasil yang Diharapkan	Hasil Pengujian	Kesimpulan
1 .	Menggosongkan Data Login, Pada Login Member. Lalu langsung mengklik tombol "Login"	<i>Username</i> : (Kosong) <i>Password</i> : (kosong)	Sistem akan menolak akses login menampilkan pesan " <i>Username dan Password Tidak dikenal</i> "	Sesuai harapan	Valid
2.	Hanya Mengisi data <i>Username</i> dan mengosongkan data <i>password</i> , Lalu langsung mengklik tombol "Login"	<i>Username</i> : 12345 <i>Password</i> : (kosong)	Sistem akan menolak akses login menampilkan pesan " <i>Username dan Password Tidak dikenal</i> "	Sesuai harapan	Valid
3.	Hanya Mengisi data <i>Password</i> dan mengosongkan data <i>Username</i> , Lalu langsung mengklik tombol "Login"	<i>Username</i> : (kosong) <i>Password</i> : *****	Sistem akan menolak akses login menampilkan pesan " <i>Username dan Password Tidak dikenal</i> "	Sesuai harapan	Valid
4.	Menginput data login yang benar, Lalu langsung mengklik tombol "Login"	<i>Username</i> : 1234 <i>Password</i> : *****	Sistem menerima akses login dan kemudian langsung menampilkan halaman utama	Sesuai harapan	Valid

			member.

4.5. *Support*

4.5.1. *Publikasi Web*

1. **Nama Domain**

Nama domain (*domain name*) adalah nama unik yang diberikan untuk mengidentifikasi nama *server* komputer seperti *web server* atau *email server* di jaringan komputer ataupun *internet*. Nama domain berfungsi untuk mempermudah pengguna di *internet* pada saat melakukan akses ke *server*, selain juga dipakai untuk mengingat nama *server* yang dikunjungi tanpa harus mengenal deretan angka yang rumit yang dikenal sebagai *IP address*. Nama domain kadang-kadang disebut pula dengan istilah URL, atau alamat *website*. Untuk itu PT.Prima Food International ingin memiliki nama domain sendiri, dengan nama domain atau URL : <http://180.178.99.250/rms>

2. **Kapasitas *Hosting* dan Analisa Biaya**

Hosting adalah jasa layanan *internet* yang menyediakan *server-server* untuk disewakan sehingga memungkinkan organisasi atau individu menempatkan informasi di *internet*. Kapasitas *hosting* yang ditawarkan penyedia jasa *hosting* pun cukup beragam. Untuk analisa biaya perusahaan harus membayar nama *domain* dan biaya *hosting*. Kedua biaya tersebut akan sangat tergantung pada *hosting* yang dipilih, sebagai contoh di salah satu penyedia jasa *hosting* <https://dewaweb.com> :

Tabel IV.12
Tabel Analisa Biaya

Fitur	Mulai Rp. 15.000 / bln.	Mulai Rp. 30.000 / Bln.
Disk Size	200 MB	1 GB
Support Priority	UNMETERED	UNMETERED
Resource Limit	++	+++
Add on Domain	0	1
Park Domain	0	1
Minimum Kontrak	3 bulan	1 bulan

4.5.2. Spesifikasi *Hardware* dan *Software*

Perangkat keras yang dibutuhkan dalam Sistem Informasi Klinik Denta Medika ini adalah sebagai berikut:

Tabel IV.13
Spesifikasi *Hardware* dan *Software*

Kebutuhan	Keterangan
